## TEACHING EXPERIENCE

### Courses:

- Co-instructor of Berkeley’s graduate-level NLP (CS 288) with 90 students in Spring 2023. Taught alongside Dan Klein and Kevin Lin. I developed and taught ~10 new lectures on language models and advanced NLP topics (e.g., RLHF, retrieval, vision-language models). I also developed new homeworks, coding assignments, and mentored students.
- Teaching assistant for Berkeley’s CS188: Artificial Intelligence in Summer 2023. I co-designed the midterm and final exam, led discussion sections, and held office hours.
- Recurring guest lecturer for Berkeley’s CS294: Decentralized Intelligence in Fall 2023, with Dawn Song and Matei Zaharia. I lectured on language models, as well as privacy, security, and efficiency.
